

Radiology Manager

Children's Healthcare of Atlanta is one of the leading pediatric healthcare systems in the country. Operating three hospitals with more than half a million patient visits annually, Children's is recognized for excellence in cancer, cardiac, neonatal, orthopedic and transplant services, as well as many other pediatric specialties. More than 1,000 different job titles make up the work force at Children's -- and every employee works toward a common goal: the care and healing of children. Children's has been named as one of the "100 Best Companies to Work For" by *Fortune* magazine as well as "One of Atlanta's Best Places to Work" by *Atlanta Business Chronicle*.

Children's desires to be an employer of choice and provides a competitive total rewards program that supports our mission, vision and values and is consistent with our organization and people strategies. Our Total Rewards program includes:

- Competitive compensation
- Flexible scheduling
- Health, dental and vision insurance
- Retirement plans with generous vesting and employee contributions
- Up to five weeks of paid time off each year including holidays
- Family and dependent care programs
- Wellness programs
- Convenience services and other Work Life support
- Educational assistance

Job Title: Manager of Diagnostic Radiology

Purpose:

The Manager of Diagnostic Radiology will oversee the departmental operations of the Egelston campus of Children's Healthcare of Atlanta. This individual will be accountable for excellence in leadership and management in the delivery of patient care and clinical practice in all radiology modalities. Reports to the System Director of Radiology. Manages human, fiscal, and other resources while directing and supervising all functions and activities of the department. Implements and interprets policies and procedures. Monitors quality outcomes, standards, and regulations for personnel, patients, medical staff, and the public. Functions as an expert in the field, not only as a professional resource to the hospital and community, but also in clinical practice within his or her area. Conducts and administers fiscal operations; including audits, planning budgets, authorization of expenditures, and financial reporting. Coordinates interdisciplinary team members within a patient-centered model of healthcare delivery involving patients and their families in all aspects of planning, delivery, and evaluation of care within the Radiology Department. Through vision, planning, and the development of people; the Manager of Diagnostic Radiology will create a culture of talent, teamwork, and service that will result in optimum experiences for patients, visitors, and staff.

Minimum Qualifications: Bachelor of Science in Radiology or related degree is required. Registration by the American Registry of Radiologic Technologists, as well as a minimum of eight years of clinical radiology experience is required. Previous supervisory and/or managerial experienced is also required. Demonstrated administrative and technical excellence is expected; as well as sound judgement, communication skills, and the ability to work independently under pressure. CRA designation preferred.
